Precontractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product Name: M&G European Loan Fund
Legal Entity Identifier: 549300LTF9F6RP7SS836

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

● ● ☐ **Yes** ● ● ☒ **No**

☐ It will make a minimum of **sustainable investments with an environmental objective**:

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It will make a minimum of **sustainable investments with a social objective**:

☒ It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 20% of sustainable investments

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☒ with a social objective

☐ It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

Positive ESG risk and opportunity characteristics
The Fund invests in securities of companies or issuers exhibiting positive ESG risk and opportunity characteristics that meet a minimum threshold based on proprietary ESG score or third party ESG score. ESG score considers a broad range of environmental, social and governance factors, such as climate, diversity and inclusion, board composition, disclosure, where appropriate. Each investment made by the Fund meets a minimum score on the Investment Manager's proprietary ESG scoring system or third party ESG score.

ESG Exclusions
The Fund will not invest in activities that are considered to be harmful to the society or the environment. The Fund screens out any issuers that are in breach of international standards and/or are operating in sectors deemed not complying with ESG principles.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

Positive ESG risk and opportunity characteristics

- % NAV providing environmental solutions
- % NAV providing circular economy solutions
- % NAV providing social inclusion
- % NAV providing better health
- Weighted Average Carbon Intensity
- % NAV with committed Science-Based Targets
- % NAV with ratified Science-Based Targets
- % NAV aligned to less than 1.5 degree pathway
- Average corporate ESG score (proprietary)
- % NAV below minimum corporate ESG score (proprietary)

- % NAV with a modern slavery policy
- % NAV board gender female +33%

ESG Exclusions
- % NAV held in investments excluded by the Fund's ESG exclusions

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**
  To invest in companies that exhibit strong ESG characteristics expressed through a broad range of environmental, social and governance factors and/or their economic activities provide solutions in the areas of environment, circular economy, better health or social inclusion. The Investment Manager uses a series of proprietary tests based on available data to determine whether an investment makes positive contribution towards environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**
  Before investment and at least annually during the holding period, a check is performed to validate that sustainable investments exclude economic activities that are deemed to cause harm to people and/or the environment. Further, fourteen mandatory and four optional Principal Adverse Impact (PAI) indicators from the Annex I of EU Commission Delegated Regulation 2022/1288 are considered to establish materiality of the PAI indicator to the potential investment to ascertain that investment does not cause significant harm. Do No Significant Harm test is embedded in the initial due diligence and periodic monitoring process.

  - **How have the indicators for adverse impacts on sustainability factors been taken into account?**
    Assessment of PAI indicators is performed before each investment to determine suitability for the Fund and at least annually during the holding period to inform areas for engagement with the issuers and determine appropriateness of investment classification as sustainable. Where data is available, quantitative assessment is performed. For remainder of PAIs, qualitative analysis is used to evaluate the impact.

  - **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**
    Due diligence performed before investment and annually during the holding period includes consideration of alignment with the UN Guiding Principles on Business and Human Rights. If potential investment is assessed to be in breach of the UN Guiding Principles on Business and Human Rights or OECD Guidelines for Multinational Enterprises, it will not be acquired. For existing investments, the Investment Manager will engage with the issuer.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

000

Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes, At the product level, the Fund considers principal adverse impacts through assessing and monitoring fourteen mandatory and four optional PAI indicators from the Annex I of EU Commission Delegated Regulation 2022/1288. Adverse impacts are considered for engagement with the issuers. PAI indicators are collected from issuers for each applicable reference period with use of a systematized process and a best effort basis.

Corporate mandatory indicators:

1. Greenhouse gas (GHG) emissions
2. Carbon footprint
3. GHG intensity of investee companies
4. Exposure to companies active in the fossil fuel sector
5. Share of non-renewable energy consumption and production
6. Energy consumption intensity per high impact climate sectors
7. Activities negatively affecting biodiversity-sensitive areas
8. Emissions to water
9. Hazardous waste and radioactive waste ratio
10. Violations of UNGC principles and OECD Guidelines for Multinational Enterprises
11. Lack of processes and compliance mechanisms to monitor compliance with UNGC principles and OECD Guidelines for Multinational Enterprises
12. Unadjusted gender pay gap
13. Board gender diversity
14. Exposure to controversial weapons

Corporate voluntary indicators:

Investments in companies without carbon emission reduction initiatives
Investments in companies without workplace accident prevention policies
Lack of human rights policy
Lack of anti-corruption and anti-bribery policies

The information on how principal adverse impacts on sustainability factors were considered will be available in the annual report of the Fund.

☐ No

What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The Fund invests principally in a diversified portfolio of leveraged loans and sub-participations in leveraged loans. The Fund may also invest in senior secured floating rate notes (being public bond issues that possess similar structural features and security to senior leveraged loans).

The Fund makes investments which exhibit positive ESG risk and opportunity characteristics. They are measured through proprietary analysis and/ or with the use of third party ESG information.

Qualitative and quantitative analysis is combined to assess a company's ESG risk management and value-creation abilities. An in-house ESG scoring system is used, leaning on the Sustainability Accounting Standards Board's risk-mapping framework and supplemented by the leveraged finance team's investment experience to identify material ESG risks to investigate. Climate-related risks are also assessed and the state of a company's target-setting will be an input to assessment. In addition, the leveraged finance team conducts an engagement program with borrowers and sponsors to attest to their governance models, their environmental and social operating guidelines and where appropriate, to engage on key issues such as climate, diversity and inclusion, single use plastic and lobby for greater disclosure of ESG issues. Specific ESG commentaries are incorporated in all credit papers prior to initial investment and are revisited regularly, including at each six-monthly review of the entire portfolio.

- **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**
  Subject to the point below, the Fund may not invest in assets which have an ESG score by the AIFM or its delegate of lower than 40. If no ESG score by the AIFM or its delegate is available, then the Fund may not invest in assets which have an ESG Rating from MSCI of below BB or in assets which have an ESG Risk Rating from Sustainalytics of above 30.4.

The Fund may invest up to 5% of its Net Asset Value in lower-rated assets or non-rated assets in respect of proprietary ESG score or third party ESG score where a demonstrable and monitored plan of action and engagement is to be pursued with a view to targeting a higher rating over time.

ESG Exclusions
The AIFM, or its delegate, acting on behalf of the Fund, may not make an investment in any company or corporate which, at the time of purchasing an asset, is within scope of the following:

- **Global Norms.** Companies assessed to be in breach of the United Nations Global Compact principles on human rights, labour, environment protection and anti-corruption.
- **Controversial Weapons.** Companies assessed to be involved in anti-personnel mines, cluster munitions, chemical and biological weapons, nuclear weapons outside the non-proliferation treaty, depleted uranium and white phosphorous munitions, blinding laser, non-detectable fragment weapons. A 0% revenue threshold for such companies is applied.
- **Thermal Coal.** Companies that engage in activities excluded under the Investment Manager's Thermal Coal Policy. This includes public companies that are in scope of the policy, as well as, privately held companies that engage in such activities.
- **Unconventional Oil and Gas.** Companies that derive revenues from the unconventional extraction of oil and gas (defined as oil sands and Arctic drilling) are excluded. A 10% revenue threshold for such companies is applied.
- **Adult Entertainment.** Companies involved in the production and / or distribution of adult entertainment. A 10% revenue threshold for such companies is applied.
- **Gambling.** Companies involved in the provision of gambling-related services. A 10% revenue threshold for such companies is applied.
- **Tobacco.** Companies involved in the production and / or distribution of tobacco. A 5% revenue threshold for producers and a 10% revenue threshold for distributors (wholesale and retail) is applied.

After the purchase of an investment, the Investment Manager will continue to monitor the limits listed above but they may be exceeded for reasons beyond the control of the Investment Manager. If they are exceeded after purchase the Investment Manager will record such matters and adopt as a priority objective to resolve that situation, but it will not be considered a breach. The Investment Manager shall be under no obligation to dispose of the assets in the event that limits are infringed after the acquisition of an asset and may disregard them where it believes that to do so is in the best interests of the Shareholders but no further acquisitions of such asset will be made while the limits are infringed.

The investment restrictions applying to thermal coal, as set out in section of the Prospectus entitled The Investment Manager's Thermal Coal Investment Policy, apply to the Fund and may have an effect on the assets in which the Fund invests.

- **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**
  The Fund does not set a committed minimum rate to reduce the scope of the investments considered prior to the application of the investment strategy.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

- **What is the policy to assess good governance practices of the investee companies?**
  Good governance practices of investee companies are assessed prior to making an investment and monitored during the holding period as part of initial and periodic due diligence. Governance factors considered include, but are not limited to: sound management structures, employee relations, remuneration of staff and tax compliance. The Fund does not invest in issuers that do not pass good governance test performed as part of initial due diligence. Material governance issues arising from periodic due diligence are considered for engagement with issuers.

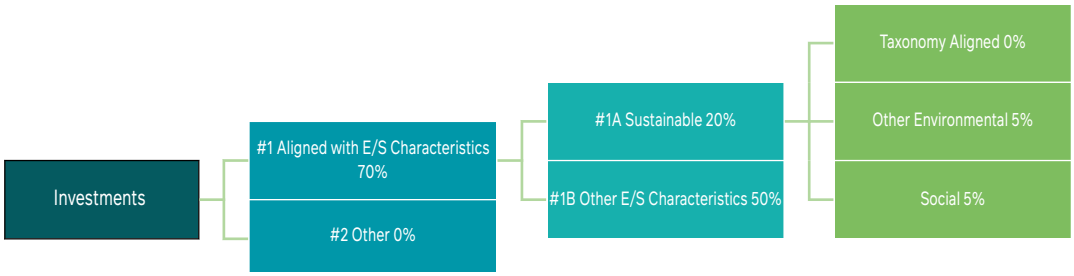

Asset allocation describes the share of investments in specific assets.

What is the asset allocation planned for this financial product?

A minimum of 70% of the Fund's NAV are investments aligned to the environmental or social characteristics promoted. This includes a minimum of 20% of NAV in sustainable investments. A minimum of 5% of the NAV is aligned to the environmental objective and a minimum of 5% of the NAV is aligned to the social objective. Fund's strategy assumes flexibility for the portfolio to have varying proportions of investments targeting environmental and social outcomes over time. A minimum of 0% (and a maximum of 30%) of the NAV are other investments not aligned to the environmental or social characteristics.

All asset allocations below are expressed as a % of Fund's NAV. They reflect planned asset allocation resulting from the commitments outlined in the paragraph above.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund does not use derivatives to attain the environmental or social characteristics.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently take into account the EU criteria for environmentally sustainable economic activities as defined in the Taxonomy Regulation. The Fund will not actively target investments in taxonomy-aligned assets as part of its investment policy and, therefore, the Investment Manager expects that 0% of the Fund's investments will be aligned with the environmental objectives under the Taxonomy Regulation.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

- **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy[1]?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

[1] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments **including sovereign bonds***

2. Taxonomy-alignment of investments **excluding sovereign bonds***

This graph represents 100% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What is the minimum share of investments in transitional and enabling activities?**
  The Fund does not set a minimum share of investments in transitional and enabling activities.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?
The minimum share of sustainable investments with an environmental objective is 5% of NAV. None of these assets are expected to be aligned to EU Taxonomy because the Fund does not currently take into account the EU criteria for environmentally sustainable economic activities as defined in the Taxonomy Regulation.

What is the minimum share of socially sustainable investments?
The minimum share of socially sustainable investments is 5% of NAV.

What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?
Investments included in "#2 Other" consist of cash and cash equivalents, investments held for hedging or liquidity purposes, investments for diversification purposes or investments for which there is insufficient data.

For investments for which there is insufficient data and investments for diversification purposes, minimum safeguards comprise of exclusion of the companies that are assessed to be in breach of the UN Guiding Principles on Business and Human Rights or OECD Guidelines for Multinational Enterprises. For other ancillary assets (i.e. cash, cash equivalents and hedging instruments) no minimum environmental or social safeguards have been put in place.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?
No reference benchmark has been designated to determine whether this Fund is aligned with the environmental and social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**
  Not applicable.

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**
  Not applicable.

- **How does the designated index differ from a relevant broad market index?**
  Not applicable.

- **Where can the methodology used for the calculation of the designated index be found?**
  Not applicable.
